Coimbatore, Tamil Nadu | Immediate Joiner | Expected CTC: Open to Discussion

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 4+ years of experience building scalable enterprise web applications using MEAN Stack (MongoDB, Express.js, Angular, Node.js). Proven expertise in HRMS platforms, RESTful APIs, and role-based authentication using Keycloak & SSO. Immediate joiner seeking mid-level to senior Full Stack / MEAN Stack roles in Coimbatore, Chennai, or Remote.

TECHNICAL SKILLS

Frontend: Angular, HTML5, CSS3, JavaScript (ES6+), TypeScript, Bootstrap

Backend: Node.js, Express.js, REST API Development, Microservices **Database:** MongoDB, Query Optimization

Auth & Security: Keycloak, SSO, RBAC **DevOps & Tools:** Git, GitLab, Jira, PM2, Apache, Linux, JSON **Methodologies:** Agile, Scrum, MVC

WORK EXPERIENCE

MEAN Stack Developer | Systech Innovations Pvt Ltd

Coimbatore, Tamil Nadu | Mar 2023 – Apr 2026

- Developed and maintained HRMS web applications using Angular, Node.js, and MongoDB, delivering client-specific modules based on business requirements
- Designed RESTful APIs for payroll, attendance, and leave management; implemented RBAC & SSO using Keycloak for secure enterprise-level access control
- Managed production deployment using Apache and PM2 ensuring 99%+ uptime; resolved production issues and streamlined workflows
- Collaborated with cross-functional Agile teams to deliver feature enhancements within sprint deadlines

Junior Developer | Kitkat Software Technologies

Coimbatore, Tamil Nadu | Feb 2022 – Feb 2023

- Built frontend modules for retail billing using HTML, CSS, and JavaScript, supporting 100+ daily transactions and reducing manual processing time
- Developed Node.js/Express.js backend microservices with MongoDB for high-volume transaction processing; debugged and optimized application performance

KEY PROJECTS

ERP – HRMS Web Application | Angular, Node.js, MongoDB | Mar 2023 – Apr 2026

- Built end-to-end HRMS platform for employee management, payroll, attendance & leave; implemented Keycloak SSO authentication
- Designed responsive UI with Angular + TypeScript; integrated MongoDB backend APIs improving application reliability and data integrity

Retail Billing Application | HTML, CSS, JavaScript, Node.js, MongoDB | Feb 2022 – Feb 2023

- Developed responsive billing & invoice modules using HTML, CSS, and JavaScript; built Node.js/Express.js backend for high-volume concurrent transaction processing

EDUCATION

Master of Computer Applications (MCA) | Bharathiyar University, Coimbatore | 2010 – 2013

Bachelor of Computer Applications (BCA) | Bharathiyar University, Coimbatore | 2007 – 2010

CORE COMPETENCIES

MEAN Stack Development • Full Stack Development • Angular • Node.js • REST API Design • MongoDB • Express.js • JavaScript • TypeScript • HTML5 • CSS3 • Keycloak • SSO • RBAC • HRMS • ERP • Agile • Scrum • GitLab • PM2 • Apache • Linux • Microservices • Enterprise Web Applications
