Full Stack Developer with 3+ years of experience in MEAN Stack technologies including Angular, Node.js, Express.js, MongoDB, JavaScript, and TypeScript. Experienced in building scalable enterprise web applications, REST APIs, and HRMS solutions with strong debugging and optimization skills.

Technical Skills

Frontend: Angular, React, HTML, CSS, Bootstrap

Backend: Node.js, Express.js

Database: MongoDB

Programming Languages: JavaScript, TypeScript

Tools & Technologies: Git, GitLab, Jira, PM2, Apache, REST API, Keycloak, JSON, Linux

Experience

MEAN Stack Developer

Systech Innovations Pvt Ltd

Mar 2023 – Apr 2026
Coimbatore, Tamil Nadu

- Maintained HRMS web applications using Angular, Node.js, and MongoDB
- Created REST APIs and backend services for payroll, attendance, and leave management
- Implemented role-based authentication and SSO using Keycloak
- Optimized deployment and server management using Apache and PM2
- Enhanced system performance by resolving production issues and improving workflows

Junior Developer

Kitkat Software Technologies

Feb 2022 – Feb 2023
Coimbatore, Tamil Nadu

- Designed frontend modules for retail billing applications using React, supporting 100+ daily billing transactions and reducing manual processing efforts
- Incorporated backend microservices using Node.js and Express.js to support high-volume transaction processing and improve system response time
- Minimized application issues through debugging and optimization
- Collaborated with agile teams to deliver feature enhancements and bug fixes

Projects

ERP - HRMS Web Application

MEAN Stack Project

Mar 2023 – Apr 2026
Angular, Node.js, MongoDB

- Created HRMS platform for employee, payroll, and attendance management
- Designed responsive interfaces using Angular, HTML, CSS, and TypeScript
- Merged backend APIs and database services using Node.js and MongoDB to improve application reliability
- Enabled secure authentication and SSO using Keycloak

Retail Billing Application

Web Application

Feb 2022 – Feb 2023
React, Node.js, MongoDB

- Built responsive billing and invoice management modules
- Incorporated backend services using Node.js and Express.js
- Improved billing workflow performance through debugging and tuning
- Supported feature implementation and issue resolution in agile teams

Education

Bharathiyar University

Master of Computer Applications (MCA)

Coimbatore, Tamil Nadu
2010 – 2013

Bharathiyar University

Bachelor of Computer Applications (BCA)

Coimbatore, Tamil Nadu
2007 – 2010
